...the '34 Act with respect to the national system for the clearance and settlement of **securities transactions**.

The Commission has granted Orgeo, a joint venture between Depository Trust & Clearing Corp. and Thomson... Orgeo must link to other matching services so that no matter what matching service a **broker**-dealer and its institutional client use, they will be able to **communicate** trade and allocation data. The order sets out a procedure for Orgeo to negotiate links...

...links. Orgeo must support industry communication protocols, message format standards, and message file protocols.

The **fees** for using the linkages must be **fair** and **reasonable**. The **order** provides for items to be considered in determining what's **fair** and **reasonable** and sets a 60-day time limit for Orgeo to negotiate the fees with another...

English Abstract

A method for facilitating trading of securities over a computer system comprises electronically receiving a buy or sell order for a security from a first user; determining that the order is reasonably priced; transmitting to a second user an electronic notification that a reasonably priced order for the security is present, but without notifying the second user of the side of the first user's order, receiving an order from the second user, wherein the second user's order...

Claim

WHAT IS CLAIMED:

1 A method for facilitating trading of securities over a computer system, comprising the steps of electronically receiving a first buy or sell order for a security from a first user, determining that said first order is reasonably priced; transmitting to a second user an electronic notification that a reasonably priced order for said security is present, but without notifying said second user of the side of said first order, receiving a second order from said second user...

...predetermined time period has lapsed. 11. A method as in claim 1, further comprising transmitting an electronic contra order notification to said first user after said second order is received, said contra order notification indicating that a nearly matching contra order is active within the system.

12 A method as in claim 1, wherein said first user receives said contra order notification immediately after said second order is received.

13 An electronic system for facilitating securities trading...

...facilitation system a financial information exchange network in communication with said trade facilitation system a communication network in communication with said trade facilitation system one or more user terminals in communication with said communication network and said financial information exchange network; and an execution engine in communication with said...

...claim 13, wherein said analytics server evaluates securities orders received from said users by comparing price aggression of said orders to a block price range for a security to which said order is directed. - 64 - A system as in claim 14, wherein said block price range is calculated by said analytics server based on recent market prices and volatility of said...
